

OHLONE COLLEGE

California Residency Reclassification Request Appeal

All Ohlone applicants are either classified as resident or non-resident of the state of California. Preliminary resident classification is determined by the information self reported by the student when completing an Ohlone application.

California law requires that residence classification be made for tuition purposes at the time that applications for admission are accepted or when a student has been absent for more than 2 semesters. In order to be considered for residency in California, you must:

1. Be physically present in California for at least one year and one day prior to the first day of the semester, and
2. Show documentation of intent to establish California residency dating at least one year and one day prior to the first day of the semester to present, and
3. Not be precluded from establishing residency by provisions of the Immigration and Nationality Act

Please provide documentation that contains student's name and a corresponding California address (Title 5 sec. 54010).
